

ABSTRACT OF THE DISCLOSURE

202120-001202

1 Data transmitted from a data transmission server  
2 1 to a certain user arrives at a network gateway 2 via  
3 an internet 100, and is received in an arrived data  
4 receiving means 31 of an arrived data dealing function  
5 part 3 provided in the inside. Then, a data arrival  
6 information determining means 32 determines the data  
7 arrival information type on the basis of the type of  
8 terminal of the pertinent user as stored in an individual  
9 user terminal type memory 33, a data arrival information  
10 editing means 34 edits data arrival information on the  
11 basis of the data received by the received data and data  
12 arrival information type, and a data arrival information  
13 transmitting means 35 transmits data arrival information  
14 to the terminal used by the user. The transmitted data  
15 arrival information arrives at a user terminal 4 via a  
16 radio network 200.
